## EXPERIENCE

---

### AI Data Trainer

March 2024 – Present

DataAnnotation | New York, NY (Remote)

- Review and edit solutions for AI coding chatbots with about 95% accuracy
- Conduct research to ensure AI responses are credible
- Write high-quality answers and code snippets for at least 3 projects daily
- Evaluate code quality produced by AI models for correctness and performance

### Software Engineer

July 2021 – October 2022

Capgemini | New York, NY (Remote)

- Refactored about 20% of business application code to increase readability
- Taught the fundamentals of Angular to 5 colleagues to increase project productivity by about 80%
- Attended a minimum of 2 monthly trainings to increase and retain programming knowledge by about 90%
- Led a team of 4 colleagues to propose a time management project for yearly Hackathon

## PROJECTS

---

### Authentication System

Developed a responsive web application that redirects the user to the appropriate page given specific login credentials

- Technologies Used: AWS, MySQL, Java, Spring Boot, Angular, Bootstrap, Postman

### Pokémon Generator

Integrated a RESTful Pokémon API with a data generator to display a random Pokémon

- Technologies Used: PokéAPI, React, TypeScript, Bootstrap

### Calculator App

Designed a simple calculator application that performs various mathematical operations

- Technologies Used: React, TypeScript, Bootstrap

## CERTIFICATIONS

---

OCA Java SE 8 Programmer I

Completed September 2021

Junior Angular Developer

Completed March 2022

NICE CXone - Core

Completed October 2022

React Frontend Development

Completed February 2024

.NET FullStack Developer

Pending

## EDUCATION

---

Texas State University

August 2016 – May 2020

B.S. in Computer Science

Minor in Applied Mathematics
